Practical – I

Roll No.: T008	Name: Aman Manoj Jha
Class: TYIT	Module : 2
Date of Assignment:29/08/2026	Date/Time of Submission:02/09/2026

A}Create a Jira Cloud account and explore the dashboard.

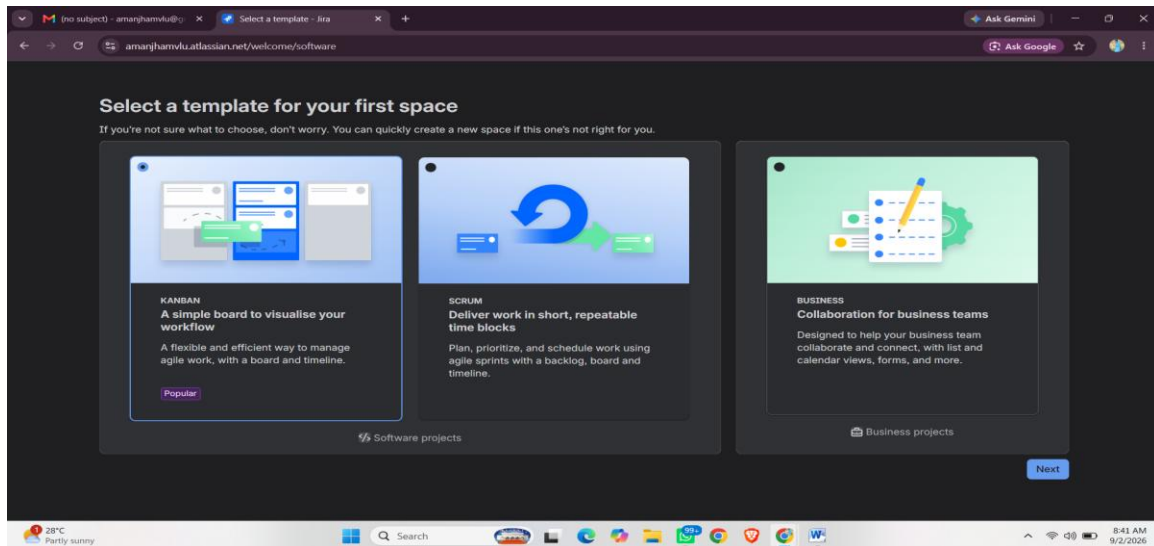

Step 1 — Open Jira

1. Open **Google Chrome** on your computer.
2. In the address bar, enter the official Jira website.
3. Press **Enter**.
4. The Jira/Atlassian page will open.
5. Click **Get started**, **Sign up**, or **Log in**, depending on what appears on your screen

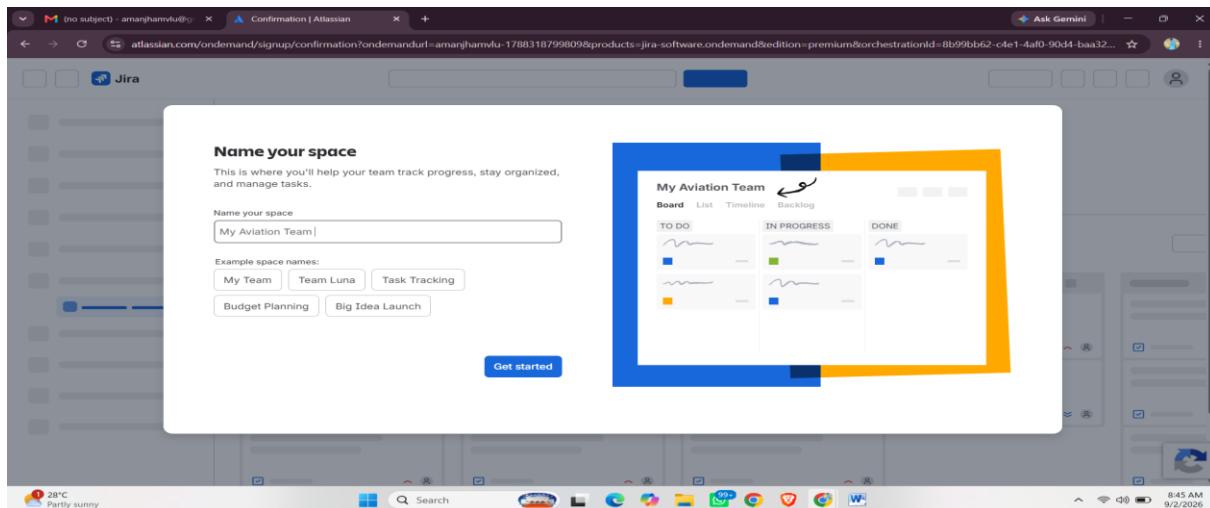

Step 2 — Select Project Management

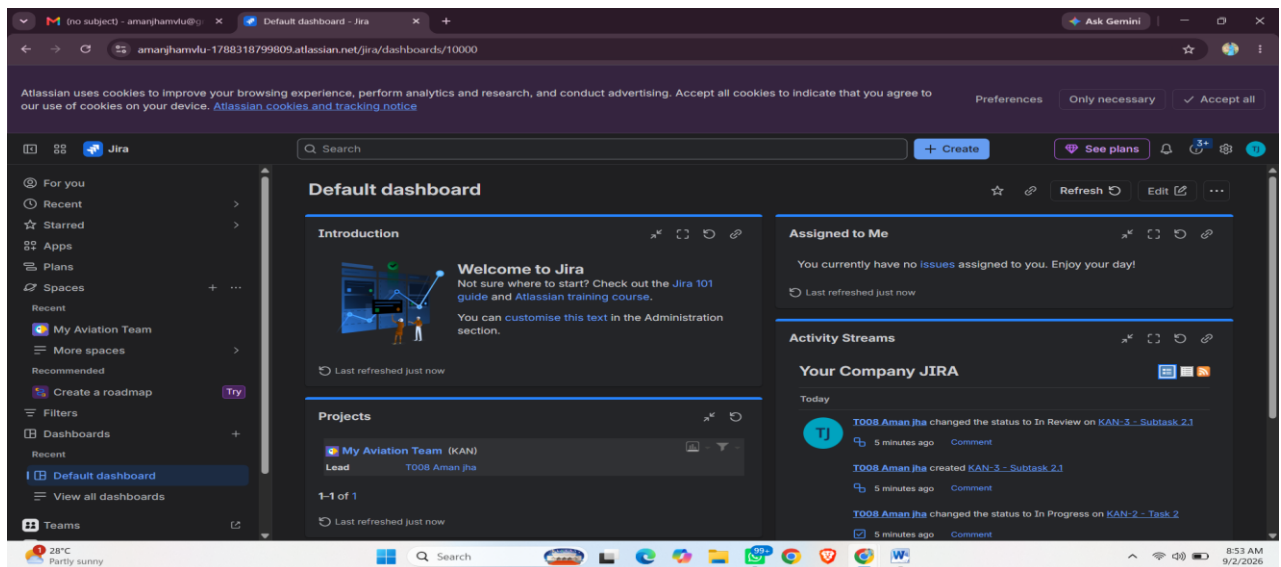

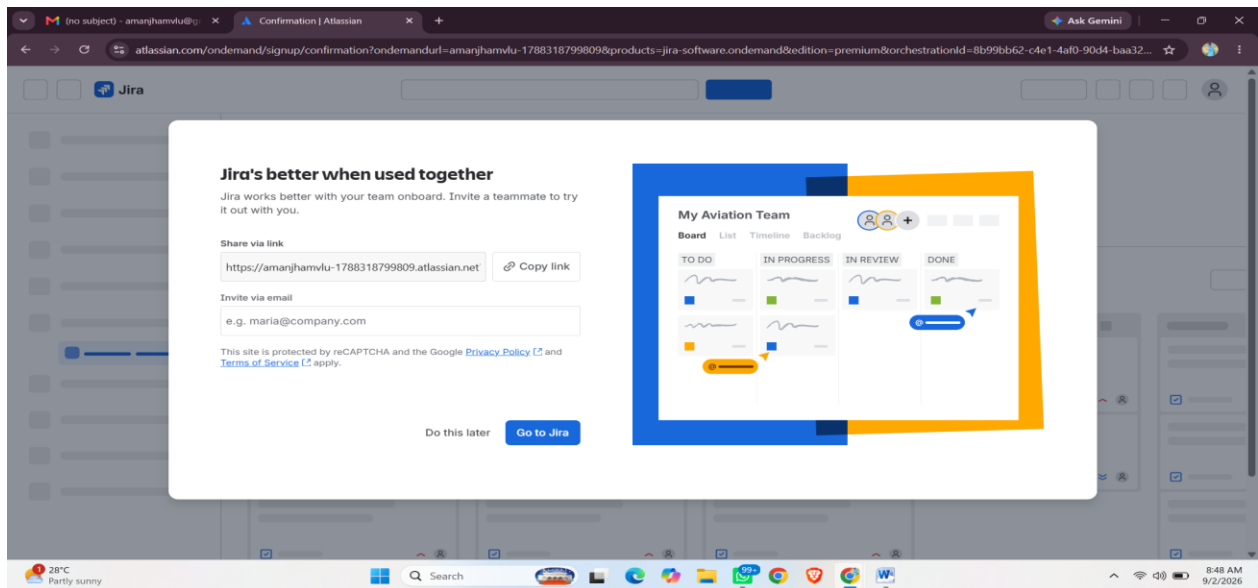

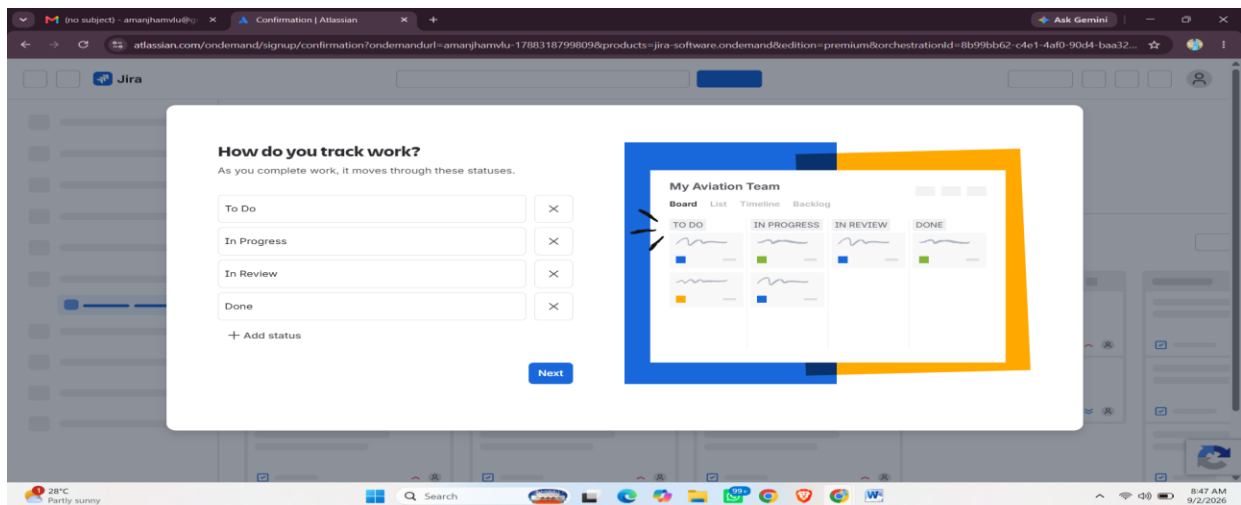

1. After Jira completes the “Getting things ready” setup, the “What type of work do you want to manage?” screen will appear.
2. Select **Project management** from the available options.
3. Make sure **Project management** is selected.
4. Click **Next** to continue.

Step 3 — Configure the Project

1. Enter a suitable **Space/Project Name**.
2. Select the appropriate **work-tracking method** and click **Next**.
3. Select the required **type of work** and click **Next**.
4. Review the setup and click **Go to Jira**.
5. You will go the jira dashboard.

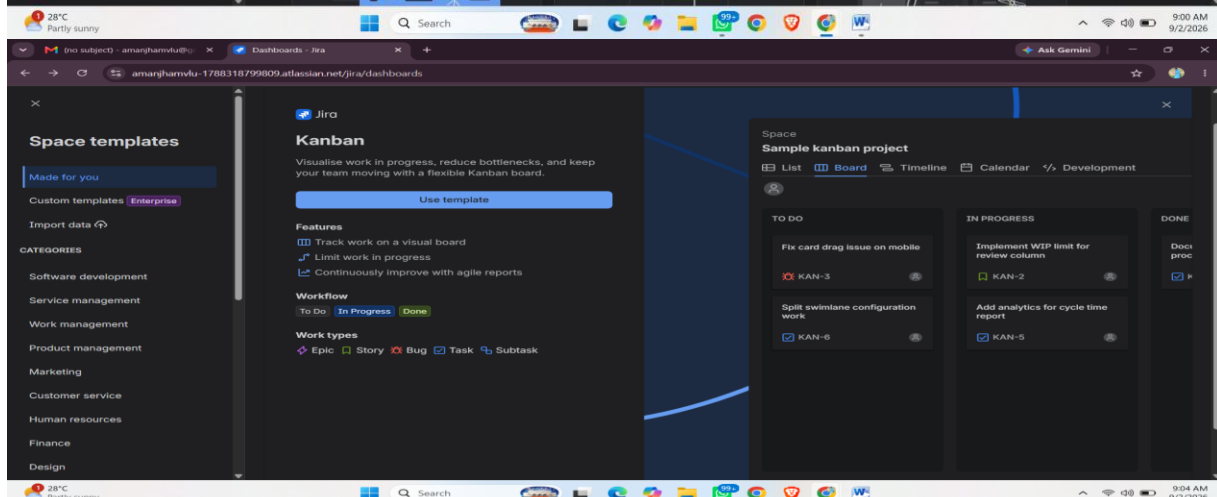

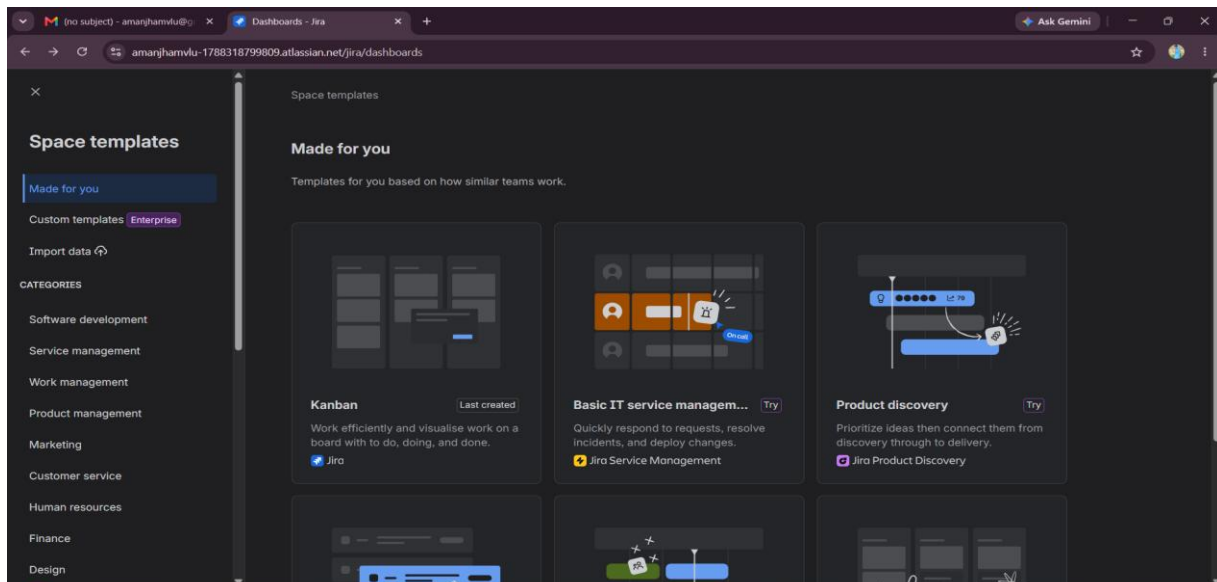

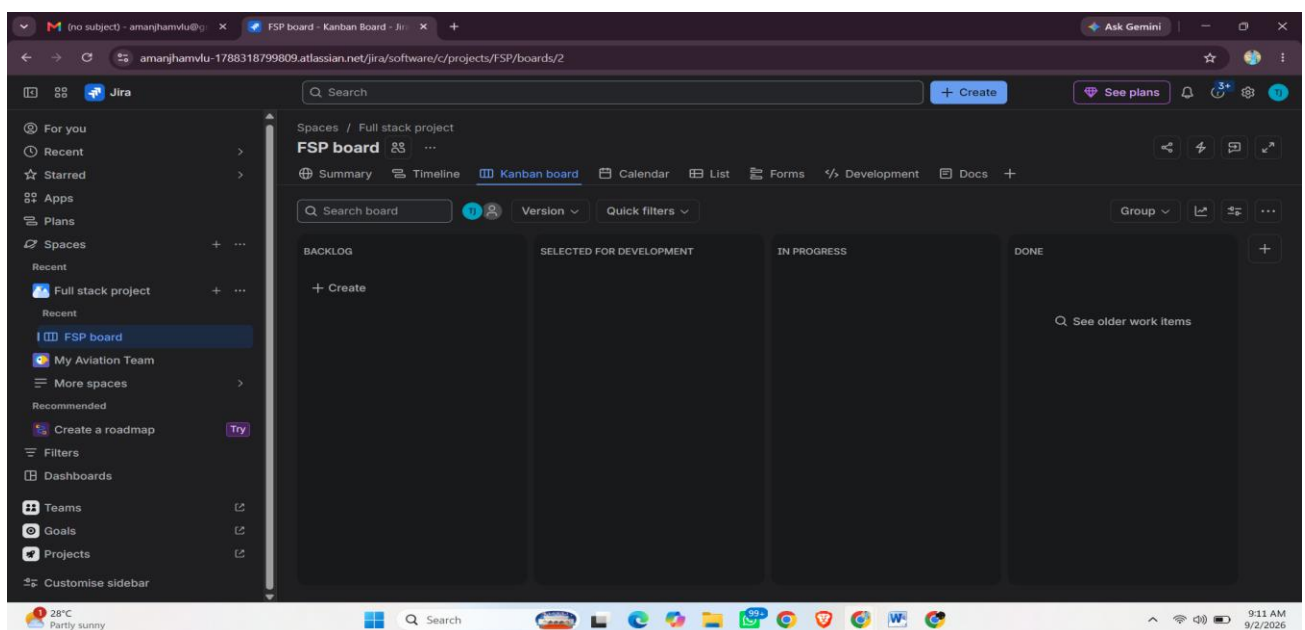

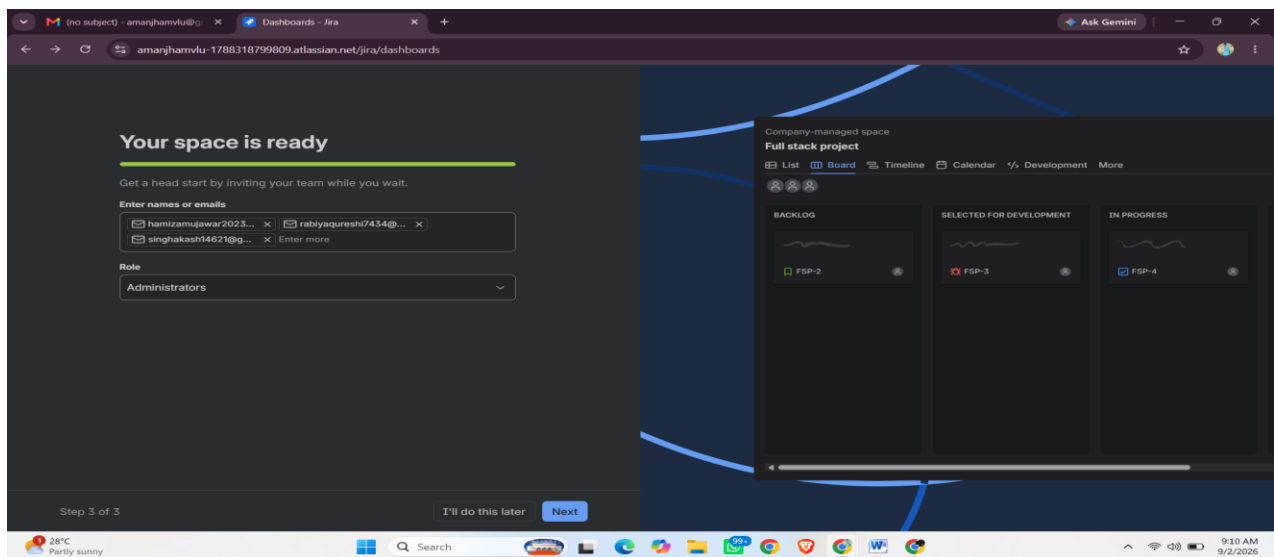

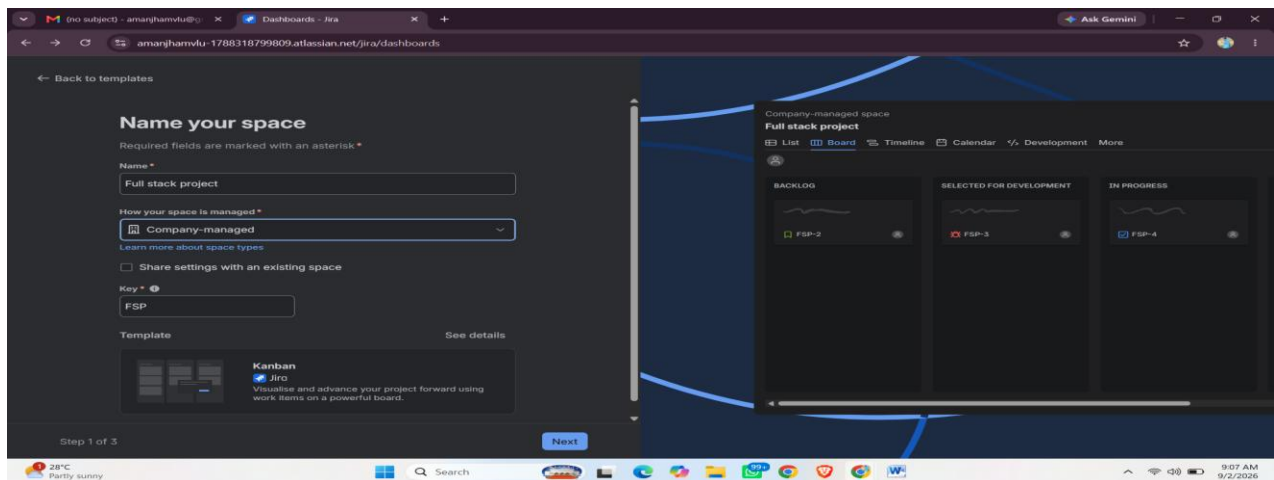

1B }- Create a Company-managed Scrum/Kanban Project.

Steps — Create a Kanban Space

1. Open your **Jira Dashboard**.
2. From the top navigation menu, click **Spaces (+)**.
3. Select the option to **create a new space/project**.
4. From the available templates, select **Kanban**.
5. Click **Use template**.
6. Enter a suitable **Space Name**.
7. Under **Space managed by**, select **Company-managed**.
8. Provide any other required project details and click **Next**.
9. Add the **email addresses of team members** you want to invite, or select **I'll do this later**.
10. Complete the setup. The **Kanban Board** will appear, where tasks can be created and moved through different stages such as **To Do** → **In Progress** → **Done**.

1C} - Configure project details

Steps — Open Space Settings

1. Open the **Jira Dashboard**.
2. From the navigation menu, click **Spaces**.
3. Select the **created Jira space/project**.
4. Click **Space settings** to access and manage the project configuration.
