Artificial Intelligence

Practical – II

Roll No.: T008	Name: Aman Manoj Jha
Class: TYIT	Module : 2
Date of Assignment:29/08/2026	Date/Time of Submission:02/09/2026

Aim:- Team Creation & Role Assignment

A.} Add Team Members

Steps:-

1. Open the previously created **Full Stack Project** space.
2. Click the **three-dot (⋮)** menu next to the space name and select **Add people**.
3. In the **Add people to Full Stack Project** window, enter the person's **email address** in the Names or emails field.
4. In the **Role** field, select the required role, such as **Administrator** or **Guest – Collaborator**.
5. Click **Add 1 person** to add the selected team member to the space.
6. Verify that the person has been successfully added to the project.

B.} Assign Roles

Steps:-

1. Open the **Full Stack Project** space and click the **three-dot (⋮)** menu.
2. Select **Add people** to open the team-member window.

3. Enter the **email addresses of multiple people** in the Names or emails field.
4. Select the appropriate **role** for the group.
5. Click **Add people** to add the selected members.
6. Verify that all added members have the required role and access to the project.
